

CERTIFICATION

At my direction, the Storm Water Management Plan for the City of Soledad was revised in form of an addendum on February 25, 2010 and pursuant to General Permit Section F.1.c: Report Status of Measurable Goals; Action Item #20 of N.O.V. dated September 25, 2009; Fulfillment of Proposed Timeline item #2 – “*Remaining 2007-2008 Annual Report Addenda will be submitted by March 1, 2010*”.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquire of the person or person who manage the system or those persons directly responsible for gathering the information, to the best of my knowledge and belief, the information submitted is true, accurate, and complete.

I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

ANNUAL STORM WATER REPORT ADDENDUM

ITEM #5

A. BMP 2.1 – Educational and Volunteer Programs

Violation of General Permit Section F.1.c – Failure to report status of measurable goals

According to General Permit Section F.1.c, annual reports must indicate whether the City achieved measurable goals established in the SWMP. Failure to provide information on the status of measurable goals is a violation of General Permit Section F.1.c. If the reason for the City's failure to provide this information is that the City did not fully implement these BMPs according to the measurable goals established in the SWMP, the City would also be in violation of General Permit Section D.1 (failure to implement BMPs). The 2007-08 Annual Report does not provide adequate information on the following measurable goals:

- The SWMP states that the City will conduct two classroom education forums per year. However, the Annual Report provides no information on when or where the presentations occurred, which grade levels were targeted, the number of students present, or the content of the presentations.
- The SWMP states that the City will initiate two clean-up days per year. However, the 2007-08 Annual Report provides no information on when the clean-up days occurred, what areas of the City were cleaned, or the number of people involved.

20

Action: Provide this information as an **addendum to the 2007-08 annual report**, and ensure that it is included **in the 2008-09 annual report and in future annual reports.**

Addendum:

The City of Soledad experienced a shortage of staff during the 2007/08 permit year and has not been able to complete the two classroom education forums per year. Although, educational materials were delivered to local elementary schools during 2007-2008.

Every year, in the month of April, the City of Soledad held an annual clean-up WEEK and coordinated with the County of Monterey and local Waste Management facilities to provide waste disposal of all household item (with the exception of refrigerators and freezers)

See attached brochure from Tri-County Disposal advertising the City of Soledad annual clean-up.
